## OUR FINISHES

### MATTE

The matte finish is the smoothest finish offered at Canadel. Neutral and versatile, it pairs well with several types of decor, whether classic, transitional, modern or contemporary.

**OFFERED IN COLLECTIONS**

Canadel, Downtown and Gourmet

**WOOD APPEARANCE**

Wood generally free of knots and flaws, meticulously sanded and hand finished by our experienced craftsmen. The result: a smooth, silky and uniform finish for furniture that is both elegant and refined.

### ANTIQUE

The antique finish evokes the richness and elegance of the matte finish, while showing slight marks, for a more natural appearance. It can be used in a classic, transitional, coastal or farmhouse decor.

### WOOD APPEARANCE

Wood with a natural appearance, showing moderate knots, flaws, marks and nicks, mainly achieved through our unique techniques and tools. The result: sublime furniture with a raw and authentic look. In lighter stains, it is possible to see color variations between each wood plank. Knots and natural variations are treated for long-term stability by filing and brushing.

*Because of the workmanship and natural materials used in each item made by Canadel, variations can occur from one piece to the other. Our warranty does not cover differences between your furniture and floor samples, finish samples, printed illustrations or web illustrations on UDesign. The same applies for fabrics and samples.*

**Over time Canadel has created its own finish, consisting of a catalysed lacquer, which is applied to all our furniture for enhanced protection.**
